freshfocus

**evergreen, efficient,
end-to-end software solution.**

Digitally transform your fresh food
business with FreshFocus.

Feed your business efficiently while you feed millions of people

The fresh food distribution process is one of the most complex operations to manage. Can your management tools keep up?

Let FreshFocus remove the complications and help you keep pace with the growing demands of your business needs with its centralised, evergreen, end-to-end solution on the Microsoft platform.

Always fresh and up to date with FreshFocus

The average fresh food producer uses 27 different apps. It's hard to be efficient if you plough through them all every day.

FreshFocus allows you to easily replace a range of apps in single solution framework, saving you from having to deal with numerous updates or upgrades to a modern system, while letting you retain any apps you want to keep.

Tap into Microsoft ecosystem easily:

01 Expand current Business Central functionality

02 Leverage the full dynamics suite – Office, Teams, SharePoint, Power Apps

03 Enable flexible inclusions of core fresh food & customer specific functionality

04 Utilise off-the-shelf third-party extension apps

Maximum efficiency, minimal disruption

No more silo information along the value chain as everyone from growers to sales can communicate and work effectively together. Your business can benefit more by saving time and cost with complete inventory visibility and your own flexible model configuration that meets your requirement.
